SUMMARY

Management Information Systems student with a Business Analytics emphasis and hands-on experience in product management, process improvement, and database design. Looking for business analyst and consulting roles where I can turn messy processes and data into clear, practical decisions.

EDUCATION

University of Georgia, Terry College of Business — Athens, GA
Bachelor of Business Administration, Management Information Systems — May 2027

- Area of Emphasis: Business Analytics
- Current GPA: 3.40
- Relevant Coursework: Business Process Management (graduate level), Data Management & SQL, Python Programming, Project Management, IT Infrastructure, Financial & Managerial Accounting, Finance, Marketing

RELEVANT WORK EXPERIENCE

RWC (Reliance Worldwide Corporation) — Atlanta, GA
Product Manager Intern — Summer 2026

- Supported the launch of a SharkBite water hammer arrestor, working cross-functionally between engineering and marketing
- Managed product data in SAP to keep item records accurate and launch-ready
- Built a competitive cross-reference analysis comparing SharkBite products against competitor offerings
- Reviewed packaging artwork and coordinated supply chain timelines with a China-based supplier

Fernandez Meat Processing LLC. — Calhoun, GA
Cashier & Packer — May 2022 - Present

- Assign and coordinate daily duties for staff to keep packing, checkout, and stocking running smoothly
- Resolve warehouse and supply issues to keep orders moving and support sales growth

Walmart Inc. — Dalton, GA
Cashier — May 2020 - August 2020

- Trained new hires on company procedures and daily store operations

Home & More LLC. — Dalton, GA
Warehouse Associate — December 2018 - August 2020

- Reorganized warehouse inventory by item number to meet corporate standards
- Led a small team as work director, assigning and tracking daily tasks
- Ran daily inventory counts and reconciled purchase orders

PROJECTS

Business Process Redesign Consulting Project, *ImagineX* — MIST 5750

- Analyzed ImagineX's fragmented employee skills and certification tracking process with input from company leadership
- Modeled current and future-state processes in BPMN and recommended scaling SkillsBase company-wide, using the Costa Rica office's compliance model as the blueprint

Relational Database Design, *Northline Outfitters & Wilderness Exploration Society* — MIST 4610

- Designed normalized MySQL schemas, loaded sample data, and wrote SQL queries to answer business questions
- Documented both databases with a data dictionary and README files

LEADERSHIP

Humane Society, *Volunteer* — May 2020 - Current

- Care for 100+ animals, including feeding, socialization, and support for animals recovering from mistreatment

Hispanic Organization for Promoting Education, *Volunteer* — August 2021 - Current

- Help lead community service events and outreach focused on education access

iServe Ministries, *Volunteer* — August 2020 - Current

- Distribute household groceries to low-income families in the Athens community

SKILLS

Language Skills: Fluent in English and Malayalam, and Intermediate in Spanish.
Computer Skills: SQL (MySQL Workbench), Python, SAP, and Microsoft Office Suite (Excel, Word, PowerPoint).
Business Skills: BPMN process modeling, Lean Six Sigma, ERP simulation (ERPsim), and competitive analysis.
